

SPECIAL EDUCATION 2360**8/24/06****Statutory/Regulatory Authority:**

Statutory authority for these rules derives from the following, all as amended from time to time:

16 V.S.A. Chapters 23, 25, 27, 51, 101, and 133;
PL 108-446 Individuals with Disabilities Education Improvement Act of 2004 (IDEIA); and
Section 504 of the Rehabilitation Act of 1973.

2360 Special Education**2360.1 Statement of Purpose**

These rules are designed to ensure that eligible Vermont students with disabilities receive a free appropriate public education in accordance with state and federal laws and regulations and in a cost-effective manner.

2360.2 Free Appropriate Public Education (FAPE)

These rules implement the Individuals with Disabilities Education Improvement Act (IDEIA), as amended. These rules provide for the education of children, youth and young adults between the ages of 3 through 21, inclusive, including children with disabilities who have been suspended or expelled from school, as provided for in Rule 4313. The Department may use whatever State, local, Federal, and private sources of support are available in the State to meet the requirements of this part. For example, if it is necessary to place a child with a disability in a residential facility, the State could use joint agreements between the agencies involved for sharing the cost of that placement. Nothing in this part relieves an insurer or similar third party from an otherwise valid obligation to provide or to pay for services provided to a child with a disability. Consistent with Rule 2363.2(a) and (d), the Department shall ensure that there is no delay in implementing a child's IEP, including any case in which the payment source for providing or paying for special education and related services to the child is being determined.

(a) FAPE for children beginning at age 3:

An eligible child shall be entitled to a free appropriate public education beginning no later than the child's third birthday and continuing, unless otherwise provided herein, through 21 years of age. An individualized education program (IEP), rather than an individualized family service plan (IFSP), shall be in effect for an eligible child by his or her third birthday. If a child's third birthday occurs during the summer, the child's IEP team shall determine the date when services under the IEP will begin.

(b) FAPE for students who have graduated:

A student who has graduated from high school with a regular high school diploma shall not be entitled to a FAPE. A student who has not yet graduated and whose entitlement to a FAPE ends because the upper age limit of eligibility is reached as described in Rule 2360.2(a), may be allowed to complete the remaining academic year with IEP team approval and approval from the Department of Education.

(c) FAPE for students who have dropped out of school:

If a student drops out of school, that student may return at any time and request to be provided with a FAPE until the student graduates with a high school diploma or the student's entitlement to a FAPE ends because the upper age limit of eligibility is reached as described in Rule 2360.2(a).

(d) FAPE for children advancing from grade to grade:

Each school district shall provide a FAPE to any individual child with a disability, who is eligible for special education, even though the child is advancing from grade to grade. The determination that a child advancing from grade to grade may be eligible for special education must be made on an individual basis by the child's EPT or IEP team.

(e) FAPE for youth who are incarcerated in adult correctional facilities:

(1) For a person between the ages of 18 through age 21:

- (i) If a person in his or her last educational placement before incarceration had not been identified as a child with a disability who was eligible for special education and did not have an IEP in place, the Department of Corrections will not be mandated to provide a FAPE.

- (A) The Department of Corrections shall make reasonable efforts to obtain and review whatever information is needed to determine that the incarcerated individual has not been identified as a child eligible for special education and did not have an IEP in his or her last educational placement prior to incarceration in an adult correctional facility.

- (ii) A person who is incarcerated shall be entitled to a FAPE if:

- (A) The person was provided services through an IEP before incarceration;

- (B) The person had been provided services through an IEP, had left school, then was incarcerated; or

- (C) The person had not been provided services through an IEP, but had been identified as a child with a disability who was eligible for special education.

- (iii) The following requirements do not apply to incarcerated students aged 18 through 21:

- (A) The requirement to participate in district-wide assessment programs and

- (B) The IEP requirements for transition planning and transition services, if the inmate will reach the upper age limit for a FAPE before release from prison based on consideration of sentence and eligibility for early release.

- (iv) Modifications of IEP or placement.
 - (A) The IEP team may modify the student's IEP or placement, if the Department of Corrections has demonstrated a bona fide security or other compelling interest that cannot otherwise be accommodated.
 - (B) The LRE requirements of §2364 do not apply to incarcerated students on IEPs.
- (2) For incarcerated persons under the age of 18, the Department of Corrections shall ensure that at intake, a screening occurs to identify those who have a disability or who are suspected of having a disability and who are in need of special education. Those who are in need of special education shall be provided with an individualized educational program (IEP) and re-evaluations as prescribed under Rule 2362.
- (f) Non-academic, extracurricular, physical education, and assistive technology services:
 - (1) Each school district shall take steps to provide non-academic and extra-curricular services and activities in the manner necessary to afford children with disabilities an equal opportunity for participation in those services and activities.
 - (2) Non-academic and extracurricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the school district, referrals to agencies that provide assistance to individuals with disabilities, and employment of students, including both employment by the school district and assistance in making outside employment available;
 - (3) Physical education. Each school district shall:
 - (i) Provide physical education services, specially designed if necessary, that shall be made available to every child with a disability receiving FAPE.
 - (ii) Afford the opportunity to each eligible child to participate in the regular physical education program available to nondisabled children unless--
 - (A) The child is enrolled full time in a separate facility; or
 - (B) The child needs specially designed physical education as prescribed in the child's IEP.

 - (iv) Education in separate facilities. The school district responsible for the education of an eligible child who is enrolled in a separate facility must ensure that the child receives appropriate physical education services in compliance with paragraphs (a) and (c) of this section;

(4) Assistive technology; Proper Functioning of Hearing Aids:

Each school district must ensure that assistive technology devices or assistive technology services, or both, as those terms are defined in Rule 2360.3.3, are made available to a child with a disability if required as a part of the child's--

- (i) Special education services under Rule 2360.3.1;
- (ii) Related services under Rule 2360.3.2; or
- (iii) Supplementary aids and services under Rules 2362 (3) 2362.2.4 (d)(13) and 2362.2.5 (a)(1)(iii).
- (iv) On a case-by-case basis, the use of school-purchased assistive technology devices in a child's home or in other settings is required if the child's IEP Team determines that the child needs access to those devices in order to receive FAPE.
- (v) Each school district must ensure that hearing aids worn in school by children with hearing impairments, including deafness, are functioning properly.

The forms provided by the Commissioner shall not require more paperwork than is required by federal law and regulation.

2360.3.8 Use of Insurance

- (a) Nothing in these regulations or the regulations implementing the Individuals with Disabilities Education Improvement Act is intended to relieve an insurer, Medicaid or other third party, from an otherwise valid obligation to provide or pay for services to a student who is eligible for special education. A school district shall use funds from the State Medicaid reimbursement administrative special fund in accordance with 16 V.S.A. §2959a (e).

(1) Children with disabilities who are covered by public insurance.

- (i) A school district may use the Medicaid or other public insurance benefits programs in which a child participates to provide or pay for services required under this part, as permitted under the public insurance program, except as provided in paragraph (1)(ii) of this section.
- (ii) With regard to services required to provide FAPE to an eligible child under this part, the school district:
 - (A) May not require parents to sign up for or enroll in public insurance programs in order for their child to receive FAPE under Part B of the Act;
 - (B) May not require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim for services provided pursuant to this part, but pursuant to paragraph (4)(ii) of this section, may pay the cost that the parent otherwise would be required to pay;
 - (C) May not use a child's benefits under a public insurance program if that use would--
 - 1) Decrease available lifetime coverage or any other insured benefit;

- 2) Result in the family paying for services that would otherwise be covered by the public insurance program and that are required for the child outside of the time the child is in school;
- 3) Increase premiums or lead to the discontinuation of insurance; or
- 4) Risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures; and

(D) Must obtain informed written parental consent.

(2) Children with disabilities who are covered by private insurance.

(i) With regard to services required to provide FAPE to an eligible child under this part, a school district may access a parent's private insurance proceeds only if the parent provides informed written consent.

(ii) Each time the school district proposes to access the parent's private insurance proceeds, the agency must--

(A) Obtain informed written parental consent; and

(B) Inform the parents that their refusal to permit the school district to access their private insurance does not relieve the school district of its responsibility to ensure that all required services are provided at no cost to the parents.

(3) Use of Part B funds.

(i) If a school district is unable to obtain parental consent to use the parent's private insurance, or public insurance when the parent would incur a cost for a specified service required under this part, to ensure FAPE the school district may use its Part B funds to pay for the service.

(ii) To avoid financial cost to parents who otherwise would consent to use private insurance, or public insurance if the parent would incur a cost, the school district may use its Part B funds to pay the cost that the parents otherwise would have to pay to use the parent's insurance (e.g., the deductible or co-pay amounts).

(4) Proceeds from public or private insurance.

(i) Proceeds from public or private insurance will not be treated as program income for purposes of 34 CFR 80.25, Education Department General Administrative Regulations (EDGAR).

(ii) If a school district spends reimbursements from Federal funds (e.g., Medicaid) for services under this part, those funds will not be considered "State or local" funds for purposes of the maintenance of effort provisions in 34 CFR §300.163 Maintenance of State Financial Support and § 300.203 Maintenance of Effort obligation for school districts.

- (5) Nothing in this part should be construed to alter the requirements imposed on a State Medicaid agency, or any other agency administering a public insurance program by Federal statute, regulations or policy under title XIX, or title XXI of the Social Security Act, 42 U.S.C. 1396 through 1396v and 42 U.S.C. 1397aa through 1397jj, or any other public insurance program.

2360.3.9 Universal Design

The term “universal design” means a concept or philosophy for designing and delivering products and services that are usable by people with the widest possible range of functional capabilities, which include products and services that are directly accessible (without requiring assistive technologies) and products and services that are interoperable with assistive technologies. (P.L. 108-364 Assistive Technology Act of 2004, 29 U.S.C. 3002)

2360.5 Early Intervention Services For Infants And Toddlers, Birth to Three Years Of Age: Part C Of the Individuals with Disabilities Education Act

Part C, provides early intervention services for children birth to the third birthday. While Part B of the IDEA provides a FAPE to eligible people from their third birthday through 21 years of age, Part C does not provide a FAPE to its eligible population. The Vermont Department of Education and the Agency of Human Services shall serve as the co-lead agencies in Vermont for the implementation of early intervention services under Part C of the Individuals with Disabilities Education Act (IDEA).

As required by federal law, school districts shall engage in child-find activities to identify children who may require early intervention services.

Information and outreach services such as screening, information and referral, and family support and education shall be available for any family with concerns about their infant or toddler's development.

2360.5.1 Role of Schools/Referral/Core Team

- (a) By way of Vermont's Interagency Agreement for the Provision of Early Intervention Services, the role that each school district/supervisory union has in the provision of early intervention services shall be detailed in Regional Plans for Early Intervention. School districts/supervisory unions shall be primary referral sources and participating partners in the provision of early intervention services under Part C – IDEA.
- (b) Each region shall designate a “host agency” that serves as the central point of referral for the Family, Infant and Toddler Project. School districts/supervisory unions receiving referrals for children under the age of three, with parent approval, shall forward the referral to the regional host agency.
- (c) School districts/supervisory unions shall be members on the core team comprised of the family, regional early interventionist, school representative, community resource parent, and Children with Special Health Needs (CSHN) medical social worker for children with medical concerns.  - (5) An evaluation of the child's:
 - (i) Cognitive development,
 - (ii) Physical development, including vision and hearing,
 - (iii) Communication development,
 - (iv) Social or emotional development, and

 - (1) If, due to exceptional circumstances, it is not possible to complete the evaluation and assessment and hold the initial IFSP meeting within the forty-five day requirement, the core team must:
 - (i) Document attempts to comply.
 - (ii) Document the exceptional circumstances preventing compliance.

- (iii) Develop jointly with parents, strategies and timelines to complete the evaluation.

- (a) Families with children from birth through the third birthday, who have a developmental delay or a diagnosed physical or mental condition which has a high probability of resulting in a developmental delay, are eligible for early intervention services. Eligibility for services shall be based on the following criteria:
 - (1) Developmental Delay
A developmental delay is a clearly observable and measurable delay in one or more of the following areas: cognitive development, physical development (including hearing and vision), communication development, social-emotional development, or adaptive development, and the delayed development shall be at the level that the child's future success in home, school, or community cannot be assured without the provision of early intervention services.

Periodic follow-up may be provided, within the limits of funds available, for infants and toddlers who are at-risk for developmental delays but who are determined to be not eligible for early intervention services to determine if the child's status may have changed with respect to eligibility for early intervention services.

(c) Eligibility Determination

- (1) The core team shall determine a child's eligibility for early intervention services.

- (a) Parents of children who are in transition to Essential Early Education (EEE) or other preschool services shall be included in all phases of the transition planning and process including participation in transition meetings, site visits, and the development of the transition plan.
- (b) Eligibility for EEE Services
 - (1) A child who received special instruction, developmental therapy services or speech services through an IFSP shall be eligible for EEE without need for additional evaluation.
 - (2) A child who did not receive special instruction, developmental therapy or speech services through an IFSP, may be eligible for EEE services if the Evaluation and Planning Team determines that the child has a medical condition which may result in significant delays by the time of the child's sixth birthday.

(c) Notification of Transition Meeting(s)

- (1) The IFSP service coordinator shall provide written notification to the supervisory union or local school district where the child resides at least six months prior to the child's third birthday. With the permission of the family, the IFSP service coordinator shall convene a meeting or series of meetings that include:

2361 Eligibility of Children Age Three Years Up To the Sixth Birthday for Essential Early Education (EEE)

- (a) A child shall be eligible for EEE if:
 - (1) Determined to be eligible under Rule 2360.5.7(b)(1);

 - (3) The child meets the eligibility criteria for children 6 through 21 under Rule 2362.
- (b) For the purposes of this section, “medical condition” means a condition diagnosed by a licensed physician such as autism cerebral palsy, Down Syndrome, attention deficit disorder with hyperactivity that may result in significant delays by the child's sixth birthday.
- (c) For the purposes of this section, “developmental delay” is determined through an evaluation which consists of two assessments, one of which is a norm referenced assessment, where the child demonstrates at least a 40% delay in one or more of the following areas or exhibits a 2.0 standard deviation below the mean (2nd percentile) in one of the following areas; or a 1.5 standard deviation below the mean (7th percentile) in two or more of the following areas:
 - (1) Receptive and/or expressive communication;
 - (2) Adaptive development;

 - (4) Physical development including gross or fine motor skills; or
 - (5) Cognitive skills such as perception, memory, processing and reasoning.
- (d) The administration of any assessments shall be in compliance with the evaluation requirements of Rule 2362.2.1.
- (e) The percentage delay in a child’s performance on a norm referenced assessment may be measured by dividing the child’s age equivalent score in months by the child’s actual age in months, and then multiplying the quotient by 100. The result is then subtracted from 100 to determine the child’s percentage of delay.

2361.1 Transition for Children Moving into Kindergarten

In order to ensure a smooth transition to kindergarten, the IEP team shall:

- (a) Meet three to six months prior to the child’s entrance into kindergarten to ensure that an IEP is ready to be implemented at the beginning of the school year.

- (b) Include in the meeting the parents of the child with a disability, a kindergarten teacher in whose school the child will be placed, and a special education teacher or other school representative from the school district who is:
 - (1) Knowledgeable about the LEA's resources;
 - (2) Qualified to provide or supervise the provision of specially designed instruction to meet the unique needs of children with disabilities; and
 - (3) Knowledgeable about the general education curriculum.
 - (4) Other individuals with knowledge or special expertise regarding the child may be included in the meeting.

2361.2 Educational Placement in the Least Restrictive Environment (LRE)

In determining the educational placement of a preschool child with a disability, each school district shall ensure that:

- (a) The placement decision shall be made by the IEP team in conformity with the provisions regarding placement in the least restrictive environment set forth in Rule 2364.
- (b) The child's placement shall be:
 - (1) Determined at least annually;
 - (2) Based on the child's IEP;
 - (3) In as close proximity as possible to the child's home; and
 - (4) Based on consideration of community based early care and education settings such as a childcare, or Head Start.

2361.3 IEP Content

The content of the student's IEP shall be as set forth in rule 2363.8. For preschoolers, the IEP may also address how the child's disability affects his or her participation in developmentally appropriate play activities.

2362 Eligibility for Children Ages Six Years through Twenty One

- (a) A child shall be eligible for special education if:
 - (1) He or she has one or more of the disabilities described in Rule 2362.1;
 - (2) The disability results in an adverse effect on the child's educational performance in one or more of the basic skill areas as described in subsection (f), below; and
 - (3) The student needs special education services to benefit from his or her educational program and this support cannot be provided through the educational support system, standard instructional conditions or supplementary aids and services provided in the school.

- (b) The three criteria listed in section (a) above shall also be applied at the time the student receives a re-evaluation to determine eligibility.
- (b) A formal evaluation process, documented in a report as required by Rule 2362.2.5, shall be used to determine whether the above criteria are met.
- (c) Adverse Effect.
 - (1) To conclude that a disability has an adverse effect on the student's educational performance, the EPT shall determine and document that, as a result of his or her disability, the student is functioning significantly below grade norms compared to grade peers in one or more of the basic skills defined in Rule 2362(f).
 - (2) "Significantly below grade norms" means the 15th percentile or below, or a -1.0 standard deviation or more below the mean, or the equivalent, as reflected by performance on at least three of the six following measures of school performance, generally over a period of time.
 - (i) -1.0 standard deviation or percentile scores on an individually administered nationally normed achievement test;
 - (ii) -1.0 standard deviation or percentile score on nationally normed group administered achievement tests, including nationally normed curriculum-based measures;
 - (iii) Grades;
 - (iv) Curriculum-based measures which could include benchmark assessments and continuous progress monitoring outcomes;
 - (v) Criterion-referenced or group-administered criterion-referenced assessments;
 - (vi) Student work, language samples or portfolios.
 - (3) With respect to each basic skill considered, the EPT shall specifically identify in its report:
 - (i) Each type of measure considered by the Team;
 - (ii) The finding of the Team, with respect to each measure considered, as to whether and why the measure met (or did not meet) the 15th percentile, -1.0 standard deviation, or equivalent standard, in order to support a finding of adverse effect;
 - (iii) The specific testing data/scores, student work, and/or education records relied upon by the Team to support its finding under subparagraph (ii) that a measure did or did not meet the standard; and
 - (iv) A statement of each basic skill area in which the disability was determined to have an adverse effect, based upon (i)-(iii).

- (d) A child may not be determined to be eligible under these rules if the determinant factor for that eligibility decision is lack of instruction in reading, including the essential components of reading instruction (phonemic awareness, phonics, fluency including oral reading skills, vocabulary development, reading comprehension strategies), or math, or limited English proficiency; and the child does not otherwise meet the eligibility criteria of these rules.
- (e) If a child has a disability that results in an adverse effect on his or her educational performance in one or more of the basic skills, the EPT shall, in the following order:
 - (1) Consider the interventions, services, and accommodations the student may need, and
 - (2) Determine and provide justification that the student requires specially designed instruction that cannot be provided within the school's standard instructional conditions, or provided through the school's educational support system.
- (f) Basic skill areas—
 - (1) Unless otherwise specified in the disability category in these rules, basic skill areas are:
 - (i) Oral expression;
 - (ii) Listening comprehension;
 - (iii) Written expression;
 - (iv) Basic reading skills;
 - (v) Reading comprehension;
 - (vi) Mathematics calculation;
 - (vii) Mathematics reasoning; and
 - (viii) Motor skills.
 - (2) For an individual with a sensory impairment, one or more comparable basic skills shall be considered to serve as an appropriate substitute for one or more of the above basic skills, for example, Braille skills for basic reading skills.
 - (3) The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services.

2362.1 Categories of Disability

The existence of one or more of the following categories of disability shall be established according to the criteria set forth below.

- (a) A learning impairment or delay in learning shall be of sufficient magnitude to cause a student's performance to fall at or below -1.5 standard deviations from the mean of a test of intellectual ability and the student shall show concurrent deficits in adaptive behavior.

- (b) A specific learning disability means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which disorder may manifest itself in the imperfect ability to listen, think, speak, read, write, or do mathematical calculations.
 - (1) A specific learning disability must have an adverse effect on achievement in one or more of the following basic skill areas:
 - (i) Oral expression;
 - (ii) Listening comprehension;
 - (iii) Written expression;
 - (iv) Basic reading;
 - (v) Reading fluency;
 - (vi) Reading comprehension;
 - (vii) Mathematics calculation; or
 - (viii) Mathematics reasoning.
 - (2) The LEA shall decide whether to use a discrepancy model or a problem solving, response to intervention model that determines if the student responds to scientific, research-based instruction as a part of the evaluation procedures to identify specific learning disabilities.
 - (i) When using a discrepancy model, the EPT shall document that the student exhibits a discrepancy of 1.5 standard deviations or greater between ability and expected levels of performance in one or more of the basic skill areas.
 - (ii) When using a problem solving, response to intervention model, the EPT shall document that the student has not responded to scientific, research-based intervention.
 - (3) The EPT determines that its findings under paragraph (b)(1) and (2) of this section are not primarily the result of--
 - (i) A visual, hearing, or motor disability;
 - (ii) Mental retardation;
 - (iii) Emotional disturbance;
 - (iv) Cultural factors; or
 - (v) Environmental or economic disadvantage.

- (c) A visual impairment, as evaluated by an optometrist or ophthalmologist, shall be demonstrated by central visual acuity that is 20/70 or worse in the better eye with correction, or a peripheral field that subtends an angle not greater than 20 degrees at its widest diameter. For the purposes of this disability, mobility and orientation skills shall also be considered to be basic skills and special education services.
- (d) Deafness or being hard of hearing, as determined by an audiologist, otologist, or otolaryngologist, shall be demonstrated by a 25 decibel HL threshold (ANSI, 69) or worse for one or more of the frequencies 250-8000HZ, in one or both ears.
- (e) A speech or language impairment shall be demonstrated by significant deficits in listening comprehension or oral expression. The EPT shall obtain an opinion from a licensed speech-language pathologist as to the existence of a speech or language impairment and its effect on the student's ability to function. The determination of a speech or language impairment shall be based on the following criteria:
 - (1) Listening comprehension. A significant deficit in listening comprehension exists when a student demonstrates a deficit that is at least 2.0 standard deviations from the test mean on one or more measures of auditory processing or comprehension of connected speech. Auditory processing or comprehension include:
 - (i) Semantics
 - (ii) Syntax
 - (iii) Phonology
 - (iv) Recalling information
 - (v) Following directions
 - (vi) Pragmatics.
 - (2) Oral Expression. For purposes of determination of a speech and language impairment, a significant deficit in oral expression exists when a child demonstrates one or more of the following conditions:
 - (i) Voice. A significant deficit in voice exists when both of the following are present:
 - (A) Documentation by an otolaryngologist that treatment is indicated for a vocal pathology or speech related medical condition, and
 - (B) Abnormal vocal characteristics in pitch, quality, nasality, volume or breath support, which persist for at least one month.
 - (ii) Fluency. A significant deficit in fluency exists when the student exhibits one or more of the following behaviors:

- (A) Part word repetitions or sound prolongations occur on at least 5% of the words spoken in two or more speech samples, or
 - (B) Sound or silent prolongations exceed one second in two or more speech samples, or
 - (C) Secondary symptoms or signs of tension or struggle during speech which are so severe as to interfere with the flow of communication.
- (iii) Articulation. A significant deficit in articulation attributed to an organic or functional disorder exists when a student is unable to articulate two or more of the unrelated phonemes in connected speech, set forth below, and it is not attributed to dialect or second language difficulties.

Age	Phonemes
6.0 – 6.11	m, n, ng, h, w, p, b, t, d, k, g, f, v (y), (ch), (th) as in the word “mother”

- (A) Syntax,
 - (B) Semantics,
 - (C) Phonology, and
 - (D) Pragmatics.
- (f) An orthopedic impairment shall be the result of congenital anomaly, disease, or other condition. The EPT shall obtain an opinion from a licensed physician as to the existence of the orthopedic impairment and its effect on the student's ability to function.
- (g) An other health impairment means having limited strength, vitality or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment. The cause of the health impairment shall be chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever and sickle cell anemia.

In order to determine the existence of an other health impairment and its effect on the student's ability to function, the EPT shall obtain an opinion from a person:

- (1) Whose professional licensure authorizes him or her to offer an opinion on the existence of the specific condition suspected to be an other health impairment and its effect on the student's ability to function, and

- (2) Who has specific training and experience in diagnosing and recommending treatment for the specific condition suspected.

(h) emotional disturbance shall be defined as follows:

- (1) “emotional disturbance” means a condition, including schizophrenia, exhibiting one or more of the following characteristics over a long period of time and to a marked degree:

 - (iii) Inappropriate types of behaviors or feelings under normal circumstances.
 - (iv) A general pervasive mood of unhappiness or depression.
 - (v) A tendency to develop physical symptoms or fears associated with personal or school problems.
- (2) A student who is socially maladjusted shall not be considered to be emotionally disturbed unless he or she also meets the definition of emotional disturbance, as set forth in subdivision (1). A social maladjustment is a persistent pattern of violating societal norms, such as multiple acts of truancy, or substance or sex abuse, and is marked by struggle with authority, low frustration threshold, impulsivity, or manipulative behaviors. A social maladjustment unaccompanied by an emotional disturbance is often indicated by some or all of the following:
 - (i) Unhappiness or depression that is not pervasive;

 - (vi) Problem behaviors have escalated during pre-adolescence or adolescence;
 - (vii) Inappropriate behaviors are displayed in selected settings or situations (e.g., only at home, in school or in selected classes), while other behavior is appropriately controlled; and/or
 - (viii) Problem behaviors are frequently the result of encouragement by a peer group, are intentional, and the student understands the consequences of such behaviors.

- (3) The EPT shall obtain an opinion of a licensed psychologist or psychiatrist as to the existence of an emotional disturbance and its effect on the student's ability to function, based on the above criteria.
 - (4) Upon determination of the existence of an emotional disturbance disability, the parent shall be informed of the availability of interagency coordination of services, as defined by 33 V.S.A. §4301 et seq.

- (1) Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences. Characteristics vary from mild to severe as well as in the number of symptoms present. The term does not apply if the child has an emotional disturbance as defined in Rule 2362.1(h).
 - (2) A child who has a diagnosis along the autism spectrum after age 3 could be diagnosed as having this disability as long as the criteria in subsection (i)(1) are satisfied.
 - (3) The EPT shall obtain an opinion of a licensed physician as to the existence of an autism spectrum disorder and its effect on the student's ability to function.
- (j) Traumatic brain injury shall be an injury to the brain caused by an external physical force or by an internal occurrence such as a stroke or aneurysm, resulting in total or partial functional disability or psychosocial impairment, or both. The EPT shall obtain an opinion of a licensed physician as to the existence of a traumatic brain injury and its effect on the student's ability to function, as defined by the following criteria:
- The condition includes open or closed head injuries resulting in impairments in one or more areas, including cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech.

 - (l) Multiple disabilities means concomitant impairments such as learning impairment-blindness, learning impairment-orthopedic impairment, (etc.), the combination of which causes such severe educational needs that cannot be accommodated in special education programs solely for one of the impairments. Multiple disabilities does not include deaf-blindness.

Procedures for Evaluation and Determination of Eligibility

2362.2 Definition and Purpose

An evaluation is a compilation of information that is designed to assist:

- (a) The EPT in determining eligibility for special education;
- (b) The IEP team in developing instructional goals and objectives;
- (c) The IEP team in designing an appropriate placement in the least restrictive environment; and
- (d) Instructors in making accommodations in curriculum, materials, and mode of presentation.

2362.2.1 Evaluations: General Requirements

For purposes of this section, "evaluations" are defined as observations, tests and other diagnostic measures, individually selected and administered to determine the existence of a disability, the effect the disability has on the child's educational and functional performance, the need for specialized services, and for an appropriate program. Either a parent of a child, or a school district, or the Vermont Department of Education, or other State agency, may initiate a request for an initial evaluation to determine if the child is eligible for special education and related services.

(a) Evaluations shall:

- (1) Be conducted by persons who are trained in the administration of evaluation procedures and in the scoring and interpretation of the results in conformity with the instructions provided by their producer;
- (2) Be provided and administered in the language and form of communication most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless this is not feasible;
- (3) Be selected and administered so as not to be racially or culturally discriminatory;
- (4) Include assessments and other evaluation materials designed to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient.
- (5) Each school district shall ensure that assessments and other evaluation materials used to assess a child:
 - (i) are selected and administered so as not to be discriminatory on a racial or cultural basis;
 - (ii) are used for purposes for which the assessments or measures are valid and reliable;

- (iii) are administered by trained and knowledgeable personnel; and
 - (iv) are administered in accordance with any instructions provided by the producer of such assessments.
- (b) No single procedure shall be used as the sole criterion for determining special education eligibility and for determining an appropriate educational program for the child;
- (c) In evaluating each child's eligibility for special education, the evaluation shall be sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child may be or has been classified;
- (d) The child shall be assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities.
- (e) A variety of assessment tools and strategies shall be used to gather relevant developmental, functional, and academic information about the child, including information provided by the parent, that may assist in determining—
 - (1) Whether the child is eligible for special education services; and
 - (2) The content of the child's IEP, including information related to enabling the child to be involved in and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities).
- (f) Assessments of children with disabilities who transfer from one school district to another school district in the same academic year shall be coordinated with such children's prior and subsequent schools, as necessary and as expeditiously as possible to ensure prompt completion of full evaluations.
- (g) The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services.
- (h) The EPT shall use:
 - (1) Technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors;
 - (2) Materials and procedures to assess a child with limited English proficiency which are selected and administered to ensure that they measure the extent to which the child has a disability and needs special education, rather than measuring the child's English language skills;
 - (3) Specific tests which are valid for the purpose for which they are used and for the individual to whom they are administered;

- (4) Assessments which are selected and administered so as to ensure that when administered to a student with impaired sensory, manual, or speaking skills, the results accurately reflect the student's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills, except where those skills are the factors that the test purports to measure;
- (5) Bands of confidence or standard error of measurement when reporting and interpreting test scores and other evaluation results whenever they are available
- (6) Assessment tools and strategies that provide relevant information that directly assist persons in determining the educational needs of the child.
- (7) Evaluation procedures for identifying students with specific learning disabilities using a discrepancy model.
 - (i) Statistical procedures that correct for regression toward the mean when calculating a discrepancy in the determination of a specific learning disability. The correction for regression shall be calculated by one of the following:
 - (ii) Regression that is factored into a student's score in the test construct, or
 - (iii) The use of a predictive model that can correct for regression such as the Severe Learning Discrepancy Software Program.
- (8) Evaluation procedures for identifying students with specific learning disabilities using a problem solving response to intervention model.
 - (i) When the student is referred for an evaluation for special education eligibility following the utilization of a problem solving, response to intervention process in general education, the timelines described in Rules 2362.2.3(b) and (e) must be adhered to, unless extended by mutual written agreement of the child's parents and an EPT of qualified professionals, as described in Rule 2362.2.2.
 - (ii) When determining eligibility the EPT shall consider documentation of the scientific research-based instruction delivered to the student within general education, the intensity and duration of this instruction, and the effect of the instruction.
 - (iii) This documentation may include measures of student performance such as benchmark assessments, screening, curriculum-based assessment and continuous progress monitoring done prior to a referral to special education.

2362.2.2 Evaluation Personnel

- (a) Evaluations shall be arranged for or conducted by an EPT with assistance, where appropriate, from other specialists (psychological, medical, etc.)
- (b) The EPT membership shall include:
 - (1) A local education agency representative (LEA Representative) who:
 - (i) Is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities;
 - (ii) Is knowledgeable about the general curriculum;
 - (iii) Is knowledgeable about the availability of resources of the school district; and
 - (iv) May serve dual roles on the EPT, and is a school district employee, as long as the criteria in (i) – (iii) above are met.
 - (2) Not less than one special education teacher of the child, or if appropriate, not less than one special education service provider for the child;
 - (3) Not less than one regular education teacher of the child, to the extent appropriate, if the child is, or may be, participating in the regular education environment.
 - (4) The student when his or her transition services will be considered and other agencies likely to be responsible for providing or paying for transition services;
 - (5) At the discretion of the parent or the school district, other individuals who, in the opinion of the parents or school district, have knowledge or special expertise regarding the child, including related services personnel, as appropriate.
 - (6) An individual who can interpret the instructional implications of evaluation results, who also may be a member of the team as described in sections (1), (2), (3) and (5) above;
 - (7) The parent(s), guardian or educational surrogate parent of the child who shall be given a meaningful opportunity to contribute information to the development of an evaluation plan, and
 - (8) If appropriate, the child.
- (c) The EPT membership for a child suspected of having a specific learning disability shall also include the following people:
 - (1) The child's regular education teacher or
 - (2) If the child does not have a regular education teacher, a regular classroom teacher qualified to teach a child of his or her age; or

- (3) For a child of less than school age, an individual qualified to teach a child of his or her age; and
 - (4) At least one person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist, special education teacher, or remedial reading teacher.
- (d) Decisions by the EPT

Where the EPT cannot achieve consensus on any matter before it, the LEA Representative shall decide the matter.

2362.2.3 Time Frame for Evaluation and Consent

- (a) When a school district receives or initiates a referral for an evaluation for a student who may be eligible for special education, an EPT shall be convened without undue delay.
- (b) The initial evaluation shall be completed and the report issued within 60 days from either:
 - (1) The date parental consent has been received by the school district.
 - (i) As part of an initial or reevaluation to determine eligibility for special education, informed consent to a written evaluation plan shall be required when the EPT determines that the gathering of new information is needed. Consent shall not be required where the EPT will be relying solely on a review of existing data. The school district is not required to obtain informed consent from the parent for an initial evaluation to determine whether the child is a child with a disability if:
 - (A) Despite reasonable efforts to do so the school district cannot discover the whereabouts of the parent of the child;
 - (B) The rights of the parents of the child have been terminated in accordance with State law; or
 - (C) The rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the child.
 - (ii) When parental consent cannot be obtained.
 - (A) If the parent of a child refuses consent for an initial or a re-evaluation, where consent is required, the school district may continue to pursue those evaluations by using due process or mediation procedures.
 - (B) For a reevaluation, informed parental consent need not be obtained if the school district can demonstrate that:
 - 1) It had taken reasonable measures to obtain such consent; and

2) The child's parent has failed to respond. The school district shall document reasonable attempts to contact the parent by way of:

- i) Detailed records of telephone calls made or attempted and the results of those calls;
- ii) Copies of correspondence sent to the parents and any responses received; and/or
- iii) Detailed records of visits made to the parent's home or place of employment and the results of those visits.

(iii) Parental consent is not required before:

(A) Reviewing existing data as part of an evaluation or a reevaluation; or

(B) Administering a test or other evaluation that is administered to all children unless, before administration of that test or evaluation, consent is required of parents of all children.

or;

(2) The date on the district's Notice, which informs parents that it will be reviewing existing data as the sole basis for the initial evaluation or reevaluation.

(c) If completion of the initial evaluation will be delayed for a period exceeding 60 days as specified in sections (1) and (2) above, the parent shall be given written notice of the delay and a schedule of evaluation activities. Such notice shall be sent to a parent before the expiration of the 60 day period. A notice of delay shall only be used for exceptional circumstances, which must be documented.

(d) Consent shall be obtained before individual tests can be administered to students who receive special education services unless the assessment is being administered as an alternate assessment to district-wide or statewide assessments.

(e) The 60 day time limit for the completion of an initial eligibility evaluation identified in section (b) shall not apply to a school district if the parent of a child repeatedly fails or refuses to make a child available for the evaluation or if:

- (1) A child moves to a new school district before the eligibility evaluation in the old school district has been completed;
- (2) The new school district is making sufficient progress to ensure a prompt completion of the evaluation; and
- (3) The parent and new school district has agreed to the specific time when the evaluation will be completed.

2362.2.4 Evaluation Procedures

- (a) A comprehensive and individual initial evaluation shall be conducted before the initial provision of special education and related services to a child. Reevaluations of each eligible child shall be conducted at least once every three years or sooner, unless the parent and the school district agree in writing that a reevaluation is unnecessary. Reevaluations shall also be conducted at the request of the school district, parent or teacher, and shall not occur more than once a year unless the school district and parent agree otherwise in writing.
- (b) A review of existing data may be used to determine or re-determine eligibility. The special education teacher or service provider shall contact members of the EPT to determine whether the EPT needs to have a formal meeting to review data when the child's eligibility will be re-determined. If a parent requests that the EPT review data through a formal meeting, then a formal meeting with required notices shall be held.
- (c) A formal meeting shall be required whenever the initial eligibility of the child will be determined. When a satisfactory agreement on such time or place cannot be reached, the district shall use other, mutually agreed upon methods, to ensure parent participation, including individual or conference telephone calls, or video conferencing.
- (d) In conducting an evaluation or arranging for its conduct, the EPT shall compile sufficient and appropriate information so that necessary judgments concerning eligibility, placement, program planning, and accommodations can be made.
- (e) Prior to conducting an initial or re-evaluation for eligibility purposes, the EPT shall complete a written evaluation plan which lists the areas to be assessed, the procedures to be used in carrying out the evaluation, and personnel by title responsible for performing the evaluations. All EPT members shall have the opportunity to provide input in the development of the written evaluation plan.
- (f) The EPT, where appropriate, shall assess all student characteristics and other factors that may have a significant influence on eligibility, services to be offered or accommodations to be made, including, but not limited to:
 - (1) Physical characteristics:
 - (i) Vision
 - (ii) Hearing
 - (iii) Health
 - (iv) Medical
 - (v) Nutrition
 - (2) Social, behavioral, or emotional characteristics:
 - (i) Self-esteem

- (3) Adaptive behavior across settings:
 - (i) Independence skills
 - (ii) Coping skills
 - (iii) Self-care skills
- (4) Relevant life circumstances:
 - (i) Family
 - (ii) Community
 - (iii) Environmental factors
- (5) Speech characteristics:
 - (i) Articulation
 - (ii) Fluency
 - (iii) Voice
- (6) Language and communication skills
- (7) Intellectual or cognitive characteristics:
 - (i) Learning abilities
 - (ii) Learning styles
 - (iii) Reasoning
- (8) Areas of concern in the basic skills areas:
 - (i) Oral expression
 - (ii) Listening comprehension
 - (iii) Written expression
 - (iv) Basic reading skills
 - (v) Reading comprehension

- (vi) Mathematics calculation
- (vii) Mathematics reasoning
- (viii) Motor skills
- (9) Vocational needs
- (10) Skills in the learning environment
- (11) Assistive technology needs related to devices and services
- (12) The EPT shall assess the student's current level of performance in all curriculum areas with respect to which special education, related services and supplementary aids and services may be required.
- (13) Observation:
 - (i) For an individual with a suspected learning disability, at least one member of the child's EPT, other than the child's current teacher, who is trained in observation, shall observe the child, and the learning environment, including the regular classroom setting, to document academic performance and behavior in the areas of difficulty.
 - (A) Students who are enrolled in a program of home study or who receive instruction delivered in a home, hospital, preschool, childcare setting or other out of school setting shall be observed in instructional environments appropriate for children of that age, by trained personnel who are not the teacher. This observation shall be reported in writing to the EPT.
 - (B) If, after reasonable efforts have been made, it is not possible to conduct a classroom observation due to chronic truancy or other extenuating circumstances, there shall be documentation of efforts made to observe the student in an instructional environment.
 - (g) An EPT shall decide whether a review of existing data is sufficient to evaluate the child in the characteristics identified in section (d) above or whether new information must be obtained.
 - (1) A review of existing data could be obtained through the following:
 - (i) Evaluations and information in the child's educational records at the school, or provided by EPT members, including the parents of the child;
 - (ii) Current classroom-based assessments, local or State assessments, and observations; and
 - (iii) Observations by teachers and related service providers.

- (2) On the basis of the review of existing data, and with input from the child's parents, the EPT shall identify what additional data, if any, are needed to determine
 - (i) Whether the child is eligible or continues to be eligible;
 - (ii) The present levels of academic achievement and related developmental needs of the child; and
 - (iii) Whether any additions or modifications to the special educational and related services are needed to enable the child to meet the measurable annual goals set out in the IEP and to participate, as appropriate, in the general curriculum.
- (h) If the EPT can base the eligibility decision on existing data:
 - (1) The parents shall be notified of that determination and the reasons for it;
 - (2) No parental consent is necessary for the assessment; and
 - (3) The parent shall be informed in the Evaluation Plan Notice and at the EPT eligibility meeting, that if no new data are needed in the judgment of the other EPT members and the parent believes otherwise, as long as it is during a re-evaluation, the parent may request and shall receive an assessment to determine whether, for purposes of services under these regulations, the child continues to be a child with a disability.
- (i) If the EPT requires more than existing information, the parent shall be provided with the evaluation plan and asked to sign a consent to have the EPT gather new data, administer tests and conduct formal observations.
- (j) Without parental consent, the gathering of new data, administration of tests and conducting of formal observations may not proceed. In the instance where a parent refuses consent, or fails to respond to a request to provide the consent, the school district may follow the options listed at Rule 2365.1.3(d)(2).
- (k) The EPT shall ensure that information obtained from the written evaluation plan is documented and carefully considered. When the EPT completes its findings it shall issue a written report pursuant to Rule 2362.2.5.
- (l) If there is reason to believe a child may no longer need special education services, a school district shall evaluate the child pursuant to Rule 2362.2.4 and provide documentation in an EPT report as to whether the child no longer meets one or more of the eligibility criteria.
- (m) If a student is due to graduate with a regular high school diploma or will be attaining the age when his/her entitlement to a FAPE ends, there is no requirement to conduct a special education evaluation. The responsible school district shall provide the child with a summary of the child's academic achievement and functional performance, which shall include recommendations on how to assist the child in meeting the child's postsecondary goals.

The school district shall send a notice to the student and his/her parent(s) that a change of placement is scheduled to occur and give the reasons why.

2362.2.5 Evaluation and Planning Team Report

- (a) When all necessary information is collected, the EPT shall prepare a written report that documents whether the child is eligible. When a student is found eligible, the report shall be available for use by the IEP team in program planning. The report shall include the following and shall be provided to the parent by the EPT:
- (1) A conclusion supported by a rationale as to whether or not the student is eligible for special education based on the following:
 - (i) The presence or absence of a disability;
 - (ii) If there is a disability, whether it has an adverse effect on educational performance in one or more of the basic skill areas; and
 - (iii) Whether the student needs special education services to benefit from his or her educational program and that this support cannot be provided through the educational support system, standard instructional conditions or supplementary aids and services provided in the school.
 - (2) The evaluation procedures used including:
 - (i) A Description of any modifications or changes made from the evaluation procedures specified in the evaluation plan; or
 - (ii) Changes which were necessary in test administration as described in Rule 2362.2.1;
 - (3) A summary of all educationally relevant information collected during the evaluation, including educational, medical and psychological information and a summary of other factors considered;
 - (4) Recommendations as to the need for accommodations in curriculum, assessments, material, or programmatic adaptation, behavior management interventions, supplemental aids and services;
 - (5) The initials of all team members indicating agreement or disagreement with the eligibility conclusion. A group member who does not agree with the conclusion must submit a separate statement presenting his or her conclusions and this statement shall become part of the Evaluation Plan and Report; and
 - (6) The written report of an observation of the student, if an observation has been conducted.

2362.2.6 Students Who Are Determined to Have a Disability, But Are Not Eligible for Special Education

- (a) When an EPT determines that a student has a disability, but is not eligible for special education, it shall recommend accommodations, as needed, in such areas as assessment procedures, curriculum, material or programmatic adaptations, behavior management

interventions, and supplemental aids and services. These recommendations shall be included in the written Evaluation Plan and Report. The Evaluation Plan and Report for such a student shall be referred to the student's building administrator who shall arrange for a Section 504 Team to consider whether:

- (1) The student's disability and needs will require a Section 504 Plan or
 - (2) The student's needs can be met within the school's standard instructional conditions and through its educational support system.
- (b) If the EPT determines that the student has a disability, but is not eligible for special education, it may proceed to operate as a Section 504 team to determine whether the child is eligible for reasonable accommodations under Section 504.

2362.2.7 Independent Educational Evaluation

An “independent educational evaluation” means an evaluation conducted by a qualified examiner who is not employed by the school district responsible for the education of the child in question.

- (a) Upon completion of a school district evaluation, a parent may request an independent educational evaluation at public expense if he or she disagrees with the evaluation obtained by the school district. Except as provided in this rule, the school district shall either pay the full cost of the requested evaluation, or ensure that the evaluation is otherwise provided at no cost to the parent.
- (b) If a parent requests an independent educational evaluation, the school district shall, without unnecessary delay, either:
 - (1) Initiate a hearing to show that its evaluation is appropriate; or
 - (2) Ensure that an independent educational evaluation is provided at no cost to the parent.
- (c) A school district shall provide to a parent who requests an independent educational evaluation, information about where such an evaluation may be obtained.
- (d) Any school district criteria, under which an independent evaluation may be obtained, including the location of the evaluation and the qualification of the examiner, shall be the same as the criteria that the school district uses when it initiates an evaluation. Criteria established by a school district under this section shall not interfere with the parent's right to an independent educational evaluation.
- (e) Except as provided in (d) above, timelines or conditions related to obtaining an independent educational evaluation may not be imposed by the school district.
- (f) A school district may pursue mediation or a due process hearing to demonstrate that an independent educational evaluation obtained by a parent does not meet school district criteria.

- (g) If the school district initiates a hearing and the final decision is that the district's evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at the school district's expense.
- (h) If a parent requests an independent educational evaluation, the school district may ask for the parent's reason why he or she objects to the district's evaluation. However, an explanation by the parent may not be required, and the school district may not unreasonably delay either providing the independent educational evaluation at no cost to the parent or initiating a due process hearing to defend the district's evaluation.
- (i) If the parent obtains an independent educational evaluation at private expense, the results of the evaluation:
 - (1) Shall be considered by the school district's EPT, if the evaluation meets the district's criteria, whenever it makes any decision with respect to the provision of FAPE to the child; and
 - (2) May be presented as evidence at a hearing regarding the child.
- (j) If a hearing officer requests an independent educational evaluation as part of a hearing, the school district is responsible for ensuring that the independent evaluation is completed at no cost to the parent.

2363 Individualized Education Programs (IEP)

2363.1 Individualized Education Programs

The term 'individualized education program' or 'IEP' means a written statement for each child with a disability that is developed, reviewed, and revised in accordance with this rule and includes:

- (a) A description of all special education services, related services, and supplementary aids and services that the child will need to be able to derive benefit from his or her educational program;
- (b) A description of the special education program; and
- (c) Accommodations and/or modifications necessary for the child to progress in the general education curriculum.

2363.2 Timelines

An IEP shall be:

- (a) Developed within thirty days of a determination that the child is eligible for special education;
- (b) In effect before special education and related services are provided to the child;

- (c) In effect at the beginning of each school year unless the child has been determined to be eligible within 30 days prior to the first day of school, in which case subparagraph (a) above applies; and
- (d) Implemented as soon as possible following the IEP meeting.

2363.3 Responsibility of School Districts for IEPs

Except as otherwise provided by these rules, each school district shall ensure that an IEP is developed and implemented by the responsible school district for each eligible child residing and attending public school in that district.

2363.4 IEP Team

- (a) The school district shall ensure that the IEP team for each eligible child includes:
 - (1) A local education agency representative (LEA Representative) who:
 - (i) Is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities;
 - (ii) Is knowledgeable about the general curriculum;
 - (iii) Is knowledgeable about the availability of resources of the school district; and

 - (2) Is not required to convene an IEP meeting or develop an IEP for the child for the special education and related services for which the school district requests such consent.
- (d) If the parent provides written consent for the initial provision of IEP services before they have begun and then revokes the consent, the services shall not commence. The student shall remain eligible for services and the school district may attempt to resolve the matter with the parent by:
 - (1) Discussing the matter through appropriate informal means,
 - (2) Requesting mediation, or
 - (3) Requesting that the student be re-evaluated to determine if he or she continues to be eligible for special education services. A re-evaluation could consist of a review of existing data.
- (e) A parent may not revoke consent after services have begun. If a parent does not want some or all of the services to continue, services shall continue while the parent resolves his or her request through the following:

If the independent school or tutorial program initiates and conducts these meetings, the school district shall ensure, to the extent required by Rule 2363.5, that a LEA Representative is involved in any decision about the student's IEP and agrees to any proposed changes in the IEP before those changes are implemented. - (1) The IEP has been developed with the parents in accordance with Rules 2363 - 2363.9;
- (2) The IEP team has determined that the child's placement contained in the IEP is appropriate for the child,

Any party to the hearing has the right to request that the hearing officer prohibit the introduction of evidence at the hearing that has not been disclosed to that party at least two business days before the hearing.

2365.1.10 Attorneys' Fees

- (a) In any action or proceeding brought under Section 1415 of the Act, the court, in its discretion, may award reasonable attorneys' fees as part of the costs to--

 - (3) To a prevailing SEA or LEA against the attorney of a parent, or against the parent, if the parent's request for a due process hearing or subsequent cause of action was presented for any improper purpose, such as to harass, to cause unnecessary delay, or to needlessly increase the cost of litigation.

- (1) Funds under Part B of the Act may not be used to pay attorneys' fees or costs of a party related to any action or proceeding under Section 1415 of the Act and subpart E of the federal regulations relating to procedural safeguards.
- (2) Paragraph (b)(1) of this section does not preclude a public agency from using funds under Part B of the Act for conducting an action or proceeding under Section 1415 of the Act.

(c) A court, in its discretion, may award reasonable attorneys' fees under Section 1415 of the Act consistent with the following:

- (1) Fees awarded under Section 1415 of the Act must be based on rates prevailing in the community in which the action or proceeding arose for the kind and quality of services furnished. No bonus or multiplier may be used in calculating the fees awarded under this paragraph.
- (2) (i) Attorneys' fees may not be awarded and related costs may not be reimbursed in any action or proceeding under Section 1415 of the Act for services performed subsequent to the time of a written offer of settlement to a parent if--

 - (C) The court or hearing officer finds that the relief finally obtained by the parents is not more favorable to the parents than the offer of settlement.

- (4) Except as provided in paragraph (c)(5) of this section, the court reduces, accordingly, the amount of the attorneys' fees awarded under Section 1415 of the Act, if the court finds that--
- (i) The parent, or the parent's attorney, during the course of the action or proceeding, unreasonably protracted the final resolution of the controversy;
 - (ii) The amount of the attorneys' fees otherwise authorized to be awarded unreasonably exceeds the hourly rate prevailing in the community for similar services by attorneys of reasonably comparable skills, reputation, and experience;
 - (iii) The time spent and legal services furnished were excessive considering the nature of the action or proceeding; or
 - (iv) The attorney representing the parent did not provide to the LEA the appropriate information in the due process request notice in accordance with Rule 2365.1.6(e).
- (5) The provisions of paragraph (c)(4) of this section do not apply in any action or proceeding if the court finds that the State or local agency unreasonably protracted the final resolution of the action or proceeding or there was a violation of section 615 of the Act.

- (a) Unless placed in an interim alternative educational setting pursuant to Rules 4313.2 and 4313.4, the student shall remain in his or her current placement while waiting for the decision in connection with a due process hearing or appeal, unless the school district and the parents of the student agree to another placement.
- (b) If the due process hearing involves an application for initial enrollment in public school, the student, with the consent of the parents, shall be placed in the public school until the completion of all the proceedings.
- (c) If the decision of a hearing officer in a due process hearing agrees with the child's parents that a change of placement is appropriate, that placement shall be treated as an agreement between the school district and the parents for purposes of paragraph (a), above.

2365.1.12 Transfer of Parental Rights at Age of Majority

- (a) When a student who is eligible for special education services reaches the age of eighteen:
 - (1) The school district shall provide any notice required by these rules to both the student and his or her parents; and
 - (2) All other rights accorded to parents under these regulations transfer to the student.

- (b) The right to inspect and review education records includes:
- (1) The right to a response from the participating agency to reasonable requests for explanations and interpretations of the records;

 - (3) The right to have a representative of the parent inspect and review the records.
- (c) A participating agency may presume that the parent has authority to inspect and review records relating to his or her child unless the agency has been advised that the parent does not have the authority under applicable Vermont law governing such matters as guardianship, separation, and divorce.

- (b) A participating agency may not charge a fee to search for or to retrieve information under these provisions.

2365.2.7 Amendment of Records at Parent's Request

- (a) A parent or eligible student who believes that information in the education records collected, maintained, or used under this part is inaccurate or misleading or violates the privacy or other rights of the child may request the school district that maintains the information to amend the information.
- (b) The participating agency shall decide whether to amend the information as requested within a reasonable period of time of receipt of the request.

- (b) If, as a result of the participating agency's hearing, the agency finds that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the child, it shall inform the parent or eligible student of the right to place in the records it

maintains on the child a statement commenting on the information or setting forth any reasons for disagreeing with the decision of the school district.

- (c) Any explanation placed in the records of the child under this section must:
 - (1) Be maintained by the participating agency as part of the records of the child as long as the record or contested portion is maintained by the agency; and
 - (2) Disclose the parent's or eligible student's explanation, if the records of the child or the contested portion are disclosed by the school district to any party.

2365.2.10 Hearing Procedures

 - (2) Used for any purpose other than meeting a requirement of these regulations.
- (b) A participating agency subject to these regulations may not release information from education records to other participating agencies without parental consent, unless specifically authorized to do so by FERPA.

- (c) Disclosure of special education and disciplinary records may be made without the prior written consent of the parent or a student aged 18 or older, if:
- (1) It is made in compliance with a lawfully issued subpoena or court order, and the school has made reasonable attempts to notify the parent or the student aged 18 or older of the order or subpoena before complying with the request, so he or she may seek protective action from the court, such as limiting the scope of the subpoena or quashing it; and
 - (2) The subpoena or court order mandating disclosure specifies that the existence or the contents of, or the information furnished in response to, such subpoena or court order should not be disclosed by the receiving party; or
 - (3) It is to law enforcement or other appropriate parties, and, if the required information from the educational records is needed in connection with an emergency and knowledge of the information is necessary to protect the health or safety of the student or other individuals.

- (b) The participating agency shall inform parents when personally identifiable information collected, maintained, or used under the IDEIA is no longer needed to provide educational services to the child. The information must be destroyed at the request of the parents. However, a permanent record of a student's name, address, and phone number, his or her grades, attendance record, classes attended, grade level completed, and year completed may be maintained without time limitation.

2365.2.14 Children's Rights

The Vermont Department of Education's policy shall be to protect the privacy rights of students with disabilities:

- (c) If the rights accorded to parents under these Rules are transferred to a student who reaches the age of majority, consistent with Rule 2365.1.13, the rights regarding educational records in Rule 2365 must also be transferred to the student. However, the participating agency must provide any notice required under the procedural safeguards provisions of the IDEIA to the student and the parents.

2365.2.15 Disciplinary Information in Student Records

- (a) A participating agency shall include in the records of a child receiving special education services a statement of any current or previous disciplinary action that has been taken against the child and transmit the statement to the same extent that the disciplinary information is included in, and transmitted with, the student records of children not receiving special education services.
- (b) The statement shall include a description of any behavior engaged in by the child that required disciplinary action, a description of the disciplinary action taken, and any other information that is relevant to the safety of the child and other individuals involved with the child.

- (b) Extraordinary Services Reimbursement and the matching local funds pursuant to 16 V.S.A. §2962; and
- (c) Special Education Expenditures Reimbursement pursuant to 16 V.S.A. §2963.

The cost of providing special education services for Vermont state-placed students that is not covered by State-Placed Student reimbursement pursuant to 16 V.S.A. §2950(a) can be claimed as long as the cost is an eligible cost based on the following definitions.

2366.2.1 Instructional Services

Unless otherwise provided by this rule, expenditures for instructional services shall be allowable if required by a student's IEP and shall include:

- (1) Salaries and benefits of licensed special education teachers including vocational special needs teachers, and instructional aides for the time they carry out special education responsibilities. For these staff members, the allowable cost that a school district can claim includes a school period or service block during which their staff member is providing services to a group of eight or fewer students and the majority of the students are receiving specialized instruction or speech/language services in accordance with their IEPs. If the majority of the small group is not receiving IEP services, then only the portion of the school period or service block relating to the number of students receiving IEP services to the total number in the group is allowable.
 - (a) The core staff level shall be established by the Commissioner for each school district. The full-time equivalent number of licensed special education teachers and special education program aides employed for providing mainstream special education services during school years 1990-1991 and 1991-1992, shall be utilized to determine each school district's core level staff.
 - (b) For the salaries and benefits of the core staff to qualify as allowable costs, the staff must be providing: special education services; supplementary aids and services pursuant to Section 504 of the Rehabilitation Act; direct services to students in need of classroom support as determined by the Educational Support Team; or consultation services to meet the needs of students eligible for special education services, Section 504 services or educational support services;

- (2) Salaries and benefits for services of individual aides for the portion of time they carry out special education responsibilities;
- (3) Contracted services to provide special education instruction to students with disabilities;
- (4) Student transportation which is required to implement a part of the instructional program for students with disabilities;
- (5) The portion of non-collaborative tuition of special education programs and excess costs charged by public schools which relate to allowable costs;
- (6) The collaborative tuition for special education programs charged by public school districts or supervisory unions;
- (7) Tuition and all reasonable and necessary costs of placement, as defined in Rule 2366.2.5, excluding any regular education tuition in an independent school approved for the purpose of providing special education in accordance with 16 V.S.A. §2958(e) and Rule 2228, et seq.;
- (8) Travel of special education personnel relating to educating students with disabilities as allowed by their local contractual agreement;
- (9) Special textbooks, workbooks, other classroom supplies and other instructional materials for a student with disabilities to the extent required by a student's IEP; and

- (2) The expenditure is for a related service required by the student's IEP, including transportation to and from home for students with disabilities who cannot be accommodated by regular school bus service;
- (3) The expenditure is for services provided by personnel beyond those required by the non-special education School Quality Standards (e.g. counseling, nursing); and
- (4) The expenditure is not reimbursed by another source.

2366.2.3 Special Education Administration

Allowable expenditures for special education administration are as follows:

- (1) Salary and benefits of special education administrators and support staff for time dedicated to administration of the educational program for students with disabilities. However, if a supervisory union/district elects not to hire a special education administrator and is implementing an alternative organizational plan for the provision of special education administration for a given school year, in order for the cost to be considered an allowable expenditure, the plan must be approved by the Department of Education. The plan shall include a description of the functions and the responsibilities of the staff assigned to special education administration; the time spent on these functions; and the estimated costs to be allocated to special education administration;
- (2) Supplies, office expenses and equipment for special education administration;
- (3) Cost of inservice activities relating to special education up to a maximum amount per year established by the Commissioner;
- (4) Expense of a telephone in a special education classroom; and
- (5) Advertising expenses in an amount not to exceed \$3,000 annually per supervisory union.

2366.2.4 Evaluation Costs

Reasonable and necessary expenditures are allowable for diagnostic medical services, other tests, and associated costs when part of a comprehensive evaluation, re-evaluation, or independent evaluation.

2366.2.5 Costs of Placement in Approved Independent Schools

- (a) Subject to (b), reasonable and necessary costs, required by a student's IEP, excluding regular education tuition, of a placement in an independent school are allowable if either:
 - (1) The independent school is approved by the State Board of Education for purposes of providing special education pursuant to Rule 2228 for the category of disability under which the student was determined to be eligible for special education and has been reviewed and received reimbursement approval through the residential review process;
 - (2) The student's placement has been recommended for reimbursement either through the residential review process or as an exception by the Commissioner pursuant to Rule 2228.2.(2) of a high cost day or residential placement; or
 - (3) The student's placement is required by a due process hearing order issued following a hearing on the merits or a court order.
- (b) Costs approved by the State Board of Education at an independent school are only allowable if covered by a written agreement pursuant to Rule 2228.4.1 and at a rate approved under Rule 2228.8.

- (c) If the costs relating to a student's attendance at an independent school or program are pursuant to a legally binding settlement agreement, the parties must, at a minimum, make reference in the IEP to the settlement agreement as the means by which the parties have agreed to resolve placement differences. The agreement must provide for annual review by the parties of any resolution of placement issues.

2366.2.6 Unallowable Expenditures

The following are not allowable for reimbursement under the State of Vermont special education funding formula:

- (1) Attorney's fees and other legal costs;
- (2) Overhead costs including building operations, general administration, and business services except that are part of a collaborative tuition attributable to overhead costs, and then only to the extent that overhead costs do not exceed 20% of the total program costs;
- (3) Funds paid to union schools or supervisory unions by member school districts as assessments for special education;
- (4) Any costs not allowable under Rules 2366.2.1 through 2366.6;
- (5) Any costs for financial accounting and auditing; and
- (6) Technical Education tuition established under 16 V.S.A. §1552(a).
- (7) Any costs related to the provision of special education to a student that has reached age 22 unless the commissioner has granted an extension under 16 V.S.A. §2944(e) and
- (8) Any costs related to parentally placed independent school students in excess of the proportionate share required by the IDEIA or pursuant to a hearing officer order reached on the merits or a court order.

The contents of the plan shall be consistent with those prescribed by the Commissioner. The plan for transitional services, including estimated costs, must receive approval from the Commissioner in order for reimbursement of the otherwise non-allowable costs to occur.
- (2) The Commissioner's approval of a plan for transitional and educational services shall specify the limit as to the amount that will be reimbursed and the period during which such reimbursement will be made.

The penalty due to late reports from supervisory unions, joint contract districts and union schools shall be divided to the member towns by the same proportion that the total net cost is divided to the member towns. Grants shall be calculated according to the estimated number of children from 3 through 5 years of age in the school district. The estimated number of children who are 3 through 5 years of age shall be based on the last verified average daily membership of all children enrolled within the district in grades 1 through 3. The Commissioner shall announce the estimated number of children three through five years of age in each school district and the proposed grant allocation amounts by December 15th.
- (b) Essential Early Education grant funds shall be used to provide a free, appropriate, public education to all children within the school district who are three through five years of age and are eligible for special education.
- (c) Once a school district has fulfilled its obligations under subsection (b)(1) of this rule, Essential Early Education grant funds may be used:

2366.9.2.1 Residential Placement Review Team

As needed, the Commissioner may appoint Department of Education employees and others to a residential placement review team. Members of the team shall be subject to the confidentiality

provisions of state and federal law. The team shall have those responsibilities set forth in 16 V.S.A. §2958(b). The team shall be composed of at least two members: (1) one who has knowledge about the child's area of disability and (2) the other who has knowledge of available resources and services in the school district's region of the state, and, where relevant to the provision of a continuum addressing the student's disability, elsewhere in the State and in their region of the United States.

2366.9.2.2 Early Notification to the Commissioner

- (a) Each school district shall provide timely notification to the Commissioner, in writing, with a copy sent to the student's parents, that residential placement is being considered as a possible option for inclusion in the student's IEP when there has been:
 - (1) A recommendation by the Evaluation and Planning Team for residential placement;
 - (2) A unilateral residential placement by the parents or by another state agency, pursuant to 16 V.S.A. §2942(7);
 - (3) An annual review for a student already in residential placement; or
 - (4) When any circumstance warrants consideration by the school district that residential placement is a possible option for inclusion in a student's IEP.

Nothing herein shall be construed to mean that a student who falls within one of the above four categories necessarily requires residential placement. Additionally, nothing herein shall be construed to mean that notice to the Commissioner represents a decision of the IEP participants.

- (b) Reimbursement for residential placements shall be for placements from the date the Department receives the notification in accord with this section. This requirement shall not apply to emergency placements made due to life-threatening events to a child or to other exceptional circumstances approved by the Commissioner or designee after request by a school district and recommendation of the residential review team.

2366.9.2.3 Timelines

Unless extraordinary circumstances are presented, each school district shall notify the Commissioner at least 30 days prior to a change of placement to a residential placement, or other program, or 30 days prior to the IEP meeting where continuation at a residential placement or program is being considered. Such notice shall be given as soon as possible so that the involvement of the review team, if deemed necessary by the Commissioner, does not interfere with the timelines for the placement decision.

2366.9.2.4 Receipt of IEP

Prior to an IEP team's determination that a student requires residential placement, the school district shall forward the following documents to the Commissioner:

- (1) The student's most recent Evaluation Plan and Report;

- (2) Current IEP;
- (3) Residential placement application form; and
- (4) Any other relevant information.

2366.9.2.5 Residential Review Team Procedures

- (1) Upon receiving notice under Rule 2366.9.2.2 or the IEP under Rule 2366.9.2.4, or upon request by a parent to establish a residential placement review team to review his or her child's case, whichever comes earlier, the Commissioner may establish a review team. Within ten working days of receipt of the notice, the IEP or the parental request, the Commissioner or his designee shall notify the school district and the parents whether or not a review team has been constituted or reconvened.
- (2) The review team or any designated member thereof shall promptly investigate the need for residential placement of a student and provide technical assistance to the school district concerning the need for residential placement, alternatives to residential placement, and alternative cost-effective residential facilities.
- (3) Within 30 days, or less, of its establishment, the team, after investigation, may take any of the following actions, depending on the circumstances associated with the request for residential placement:
 - (a) Advise the school district and parents on alternatives to residential placement;
 - (b) Review the individualized education program calling for residential placement of a student to consider whether the student can be educated in a less restrictive environment;
 - (c) Assist the school district in locating cost effective and appropriate residential facilities where necessary;
 - (d) Request, but not require, a new individualized education program when it believes that appropriate alternatives to residential placement are available; or
 - (e) Offer mediation as a means of resolving disputes relating to the need for residential placement, the particular residential facility recommended for a student with a disability or the associated costs.
 - (f) The residential review team shall provide notice in writing to the school district's IEP team if and when it determines, as a result of its review, that residential placement, or that a particular residential placement, is not appropriate. The notice shall set forth the reasons(s) for the team's conclusions.
- (4) The Commissioner may waive any provision of Rule 2366.9.2.5, not otherwise inconsistent with law for emergency placements or administrative efficiency.

- (5) Where the team or its designee finds that the placement practices or policies of a school district are substantially inconsistent with least restrictive environment provisions of state or federal law, it may require the agency to submit a plan of correction.
- (6) Where the residential review team has identified, with the timelines noted above, residential facilities or alternative educational programs that are available, appropriate and less costly, and has presented such facilities or programs to the IEP team for consideration during the IEP team's consideration of placement alternatives, and the IEP team has chosen to place the child in a more costly residential facility or program, the amount of reimbursement by the State to the school district shall be based upon the less costly placement. In such an instance, the school district may appeal the decision of the Commissioner to the State Board of Education in accordance with Rule 1230.
- (7) Where the recommendation of the residential review team to IEP team is for a residential program or facility operated or developed by, or funded directly or indirectly through, another State agency, it shall be the responsibility of the residential review team, the school district and the IEP team to work with the State agency in a timely manner and in accordance with the Part B Interagency Agreement, as amended.
- (8) If placement in a public or private residential program is necessary to provide special education and related services to a child with a disability, the program, including non-medical care and room and board, must be at no cost to the parents of the child. (34 CFR 300.104)
- (9) The Commissioner, or his designee, shall establish a system whereby the Department of Education identifies and maintains current information on residential facilities, or other programs in Vermont and elsewhere, that provide educational programs to students with a variety of disabilities. Information about such facilities or programs may include, but not be limited to, the categories of disabilities served by the facility or program; the state's approval status; the costs associated with tuition and services for which the facility or program charges a fee; and any other pertinent information. Any information system created by the Department shall include a description of procedures for gathering updated information.

2366.9.2.6 Due Process Hearing

When the residential review team recommends that a student does not require residential placement, the Commissioner may initiate a special education due process hearing under Rule 2365.1.6 to determine the appropriate placement for the child.

2366.10 Local Educational Agency Plan (LEAP)

Each supervisory union, which receives IDEIA-B federal funds, shall submit a local education agency plan as required by the Vermont Department of Education.

2366.11 Assisting School Districts With Special Education Expenditures Of An Unusual Or Unexpected Nature

2366.11.1 Authorization

In fiscal years 2002 through 2006, the commissioner may use up to two percent of the funds appropriated for allowable special education expenditures as defined in these rules for the purpose of assisting town, unified union, and incorporated school districts with special education expenditures of an unusual or unexpected nature.

2366.11.2 Definitions

For the purposes of this rule, the phrase, "school district," means a town, unified union, or incorporated school district.

2366.11.3 Eligibility For Assistance

Ninety percent of funds identified for distribution under this rule shall be made available to school districts that meet the eligibility criteria set forth in subsections (a) through (c) below. Ten percent of funds identified for distribution under this rule shall be made available to school districts that meet the eligibility criteria set forth in subsection (d) below.

- (a) A school district shall not be eligible for assistance under this rule if assistance would otherwise be available under 16 V.S.A. §2963(a).
- (b) In order for a school district to be eligible for assistance under this rule, it shall have submitted, during at least two of the previous four quarters of the prior fiscal year, Medicaid bills for reimbursement for at least 85 percent of its Medicaid eligible students who received medically-related special education services. The commissioner may make an exception with respect to this requirement where a school district made reasonable efforts to comply therewith but was prevented from doing so due to extraordinary circumstances.
- (c) Expenditures may be considered unusual or unexpected and therefore eligible for reimbursement under this rule where:
 - (1) They were otherwise allowable under 16 V.S.A. §2963,
 - (2) They were not reasonably anticipated at the time of school district budget development and not included in the adopted or passed school district budget as filed with the commissioner. For the purposes of this rule, a budget "adopted or passed" includes any assessments paid to a supervisory union or union school district for special education services provided,
 - (3) They resulted in a net increase in special education expenditures over and above any offsetting decreases in expenditures or increases in revenue,
 - (4) They resulted in at least a 20% increase from the previous year in the school district's special education eligible costs per average daily membership, as that term is defined in 16 V.S.A. §4001(1), and

- (5) The supervisory union of which the school district is a member has expended at least 98 percent of funds made available to it under the IDEA.
- (d) For the purposes of distributing ten percent of the funds identified as available for distribution under this rule, a school district's expenditures may be considered unusual or unexpected where the requirements set forth in subsections (a) and (b) above, as well as in subdivisions (c)(1), (3) and (5) above, are met, and the expenditures are determined by the commissioner to be unusual expenditures because they result from the enrollment of high numbers of students with low incidence disabilities, high concentrations of students with disabilities in particular grades, or other significantly statistically anomalous circumstances.

2366.11.4 Procedures To Apply For Assistance

- (a) A school district shall make application for assistance under this rule by completing an application form prescribed by the commissioner and distributed annually.
- (b) The completed application shall be submitted to the commissioner no later than August 1. The reimbursement requested shall be in reference to special education expenditures made in the previous fiscal year.
- (c) The commissioner shall determine the eligibility of a school district for assistance under this rule by September 1.
- (d) The decision of the commissioner as to eligibility for assistance and the amount of such assistance received shall be final.
- (e) A school district which has failed to complete and submit an application to the commissioner by August 1 for assistance with respect to unusual or unexpected special education expenditures in the previous fiscal year shall not be permitted to include such expenditures in an application for assistance under this rule in any subsequent fiscal years.

2366.11.5 Amount of Assistance

- (a) By December 15th of 2001 and every year thereafter, the commissioner shall announce the maximum amount available for assistance under this rule.
- (b) The commissioner shall review a school district's application for assistance under this rule to determine whether a school district's expenditures are eligible under Rule 2366.11.3(c) or (d) for reimbursement and, if so, how much. With respect to expenditures eligible under Rule 2366.11.3(c), the amount of reimbursement shall be calculated as 90% of eligible expenditures made. With respect to expenditures eligible under Rule 2366.11.3(d), the amount of reimbursement shall be determined by the commissioner on a case-by-case basis taking into consideration the amount of funds available, the nature and degree of the anomalous circumstances, and the efforts the district has made to provide appropriate services to the students while keeping costs at a reasonable level. Reimbursement for expenditures under this subsection shall be in lieu of, rather than in addition to, reimbursement under 16 V.S.A. §2963.

- (c) If the amount of funds available for assistance under this rule is insufficient to permit each eligible school district to receive full reimbursement in accordance with subsection (b) of this rule, the amount of assistance shall be pro rated accordingly.

2366.11.6 Payment

Payment of assistance under this rule shall be made in the final payment issued to the school district for the previous fiscal year pursuant to 16 V.S.A. §2969(a).

2367 (Reserved)

2368 Children with Disabilities Enrolled by their Parents in Independent Schools and in Home Study

This section applies to children who are enrolled by their parents in recognized or approved independent schools, including religious, elementary and secondary schools. This section does not apply to children who are either:

- (a) Placed in independent schools by the school district based on an IEP team's determination that the independent school, rather than the district's school, is the appropriate placement and least restrictive environment for the child, or
- (b) Attend a private school because the school district does not maintain a public school.

2368.1.1 Child-Find

- (a) Each supervisory union shall locate, identify, and evaluate all independent school children with disabilities who are enrolled by their parents in private, including religious, elementary and secondary schools located in the supervisory union.

- (c) Activities. In carrying out the requirements of this section, the district shall undertake activities similar to the activities undertaken for the supervisory union's public school children.
- (d) Cost. The cost of carrying out the child find requirements in this section, including individual evaluations, may not be considered in determining if the district has met its proportional share expenditures obligation.
- (e) Completion period. The child find process shall be completed in a time period comparable to that for other students attending public schools in the supervisory including completion of

the initial evaluations within a 60 day time period, consistent with the evaluation process described in Rules 2362.2.3(b), 2362.2.4, and 2362.2.5.

2368.1.2 Child-Count

- (a) Each supervisory union shall--
 - (1) Conduct the consultation required by Rule 2368.1.5.1; and
 - (2) Ensure that the count is conducted on December 1 of each year.
- (b) The child count shall be used to determine the amount that the supervisory union shall spend on providing special education and related services to parentally-placed private school children with disabilities in the next subsequent fiscal year.
- (c) Supplement, not supplant. Local funds may supplement and in no case supplant the proportionate amount of IDEIA-B flow through funds required to be expended for children who are eligible for special education who have been placed by their parents in independent schools.

2368.1.3 Proportional Share of IDEIA-B Funds

The child count shall be used to determine the amount of IDEIA-B flow-through funds that the school district shall spend on providing special education and related services to parentally-placed independent school children with disabilities in the next fiscal year.

- (a) Formula. Each supervisory union shall spend the following on providing special education and related services (including direct services) to parentally-placed independent school children with disabilities:
 - (1) For children aged 3 through 21, an amount that is the same proportion of the supervisory union's allocation for the next fiscal year of Federal IDEIA-B Basic flow-through funds as the number of independent school children eligible for special education aged 3 through 21 who are enrolled by their parents in independent, including religious, elementary and secondary schools located in the supervisory union is to the total number of children eligible for special education in its jurisdiction aged 3 through 21.
 - (2) For children aged 3-5, an amount that is the same proportion of the supervisory union's allocation for the next fiscal year of Federal IDEIA-B Preschool flow-through funds as the number of parentally-placed independent school children eligible for special education aged 3 through 5 who are enrolled by their parents in independent, including religious, elementary and secondary schools located in the supervisory union is to the total number of children eligible for special education in its jurisdiction aged 3 through 5.
- (b) Calculating proportionate amount. In calculating the proportionate amount of Federal flow-through IDEIA-B funds to be provided for parentally-placed independent school children with disabilities, the supervisory union, after timely and meaningful consultation with

representatives of independent schools, shall conduct a thorough and complete child find process to determine the number of parentally-placed children with disabilities attending independent schools located in the supervisory union.

2368.1.4 No Right to FAPE for Children with Disabilities Placed by Their Parents at Independent Schools

This shall be communicated to the parents within five working days of this determination.
- (b) If the parents choose to have their child served, pursuant to his or her IEP, at a school other than that selected by the IEP team or by the school district representative, and the IEP team agrees that the IEP can be adequately implemented at the school chosen by the parents, the following shall be applicable:
 - (1) Public School: If the parents select a public school, the district shall pay any special education tuition or excess costs allowed by law.
 - (2) Independent School:

 - (ii) If the parents select an independent school not generally attended by regular education students, the district shall pay the actual educational costs associated with the parents' placement to the amount that would have been spent on the school chosen by the IEP team provided the school selected by the parents is approved for special education in the area of the child's disability.
